

# Rancho Los Amigos National Rehabilitation Center

## 2016 Spinal Injury Games

---

Dear Rancho Supporter,

Each year Rancho Los Amigos National Rehabilitation Center hosts the Spinal Injury Games, an event that exposes novice and experienced wheelchair users to a variety of sports activities that are available for individuals with spinal cord injury. Our hope is that everyone who attends comes away with the knowledge of what is possible for people with spinal cord injury. This is a full day filled with challenge, wheelchair sports, information, community resources and great friends!

This year the Rancho Spinal Injury Games is scheduled for **Saturday, October 1st**. Your support and participation has made all the difference for our patients in the past. It has allowed us to obtain needed services, provide special equipment and necessary supplies thus easing the transition back into the community after illness or injury.

We are looking for your continued support and attendance at the Spinal Injury Games, by either registering as a **SPONSOR, VENDOR or FRIEND of RANCHO**. Please see options for each listed on page 2. Your donation will defray the costs of event T-shirts, food, sports equipment and water for participants.

### The Mission of the Games

- To provide an opportunity for persons with Spinal Cord Injury (SCI) to participate in wheelchair sports; at both the novice and experienced level.
- To provide exposure to resources in our community, specifically addressing equipment / services utilized by persons with SCI. Participation by local vendors encourages our patients to research equipment / services that they will likely use as outpatients.
- To provide an opportunity for peer mentoring between inpatients, recent outpatients, and persons successfully living with spinal cord injuries in the community.
- Each sports activity attracts a different kind of athlete, in a different place in their lives. The Spinal Injury Games increases the potential success for mentoring within our diverse patient population.
